Sound, intercommunication and home automation

Technology for your life

www.egiaudio.com

With headquarters in Spain and 5 branch offices nationwide including Madrid and Barcelona, EGi is continuously strengthening its international presence with a new branch office in Portugal

EGi began as a small family business in Zaragoza and was founded by its current chairman, Mr Sánchez Pérez

EGi has been awarded ISO 9001:2000 certification for its commitment to quality, Pilot Award for Logistics Excellence 2004, and Best Telecommunications Company in the self-governing region of Aragon, Spain

EGi participates in national and international exhibitions

EGi headquarters are strategically located in Zaragoza with direct access to the road network and cover an area of about 5.300 m², housing more than 150 employees

EGi provides custom-made solutions to fit customers' needs

Quality

With over 30 years of experience in the design and manufacture of sound equipments, EGi has been awarded several quality certifications such as ISO 9001:2000 certification, Pilot Award for Logistics Excellence 2004, and Best Telecommunications Company in the self-governing region of Aragon, Spain.

EGi awarded the ISO 9001:2000 certificate in 2003. The ISO Quality Control System is applied to all processes, including design, manufacture and after-sales service of electronic sound equipments for residential, commercial and public applications.

Commercial network

EGi has more than 40 professionals working in Spain and branch offices in Madrid, Barcelona, Seville, Bilbao and Lisbon.

At the present time, EGi has built a large commercial network by opening new branch offices throughout Spain and it is strengthening its international presence thanks to the Export Department's growth.

International presence

EGi has a strong international presence with distribution networks in more than 60 countries throughout Europe, Middle East, Asia, Australia and America.

EGi markets its products through a world-wide distribution network with experienced personnel providing pre-sales consulting and post-sales technical support.

EGi offers a wide range of products including multiroom audio, intercom and public address systems for commercial, public and private installations:

- Multiroom audio, intercom and domotic systems for residential use
- Nurse-call systems for hospitals and elderly care centres
- Sound, intercom and public address systems for public and commercial installations
- Loudspeakers and acoustic diffusers
- Sound and lighting, all in one device

EGi has a Customer Service and Technical- Commercial Assistance Service which gives assessment, advice and carry out projects helping you to choose the best solution for each installation.

Sound, Intercommunication and home automation

Domos2 offers home automation and audio solutions for controlling your home. Apart from the audio functions **Domos2** allows you to activate or deactivate home electrical appliances such as alarms, heating or lighting controls, thanks to its home automation functions.

Domos2 delivers HI-FI stereo sound and all its functions can be controlled through the IR remote controls of the system.

Domos2 is perfect for beach or mountain homes. Thanks to its home automation functions, you are able to control your second home from a mobile. **Domos2** also allows you to activate your home appliances such as garden sprinklers, alarms or heating from your phone. Now you can activate your heating system while you are out, so the heat comes on and keeps your home warm before you get home. The system can even simulate your presence when nobody is at home by turning the music or lights on.

Features

- It allows up to 5 music programs (3 general and 2 local).
- Large LCD Display with backlight and brightness adjustable.
- Remote control over the external music sources from any room.
- GPS Clock for an exact time and Alarm clock.
- Remote control of the main functions of your system.
- Acoustic surveillance of rooms. Door opening & intercom control.
- General call and room-to-room intercom (up to 50 zones).
- SOS function: Emergency call via radio frequency or wire. Security alarm sensor for intruder detection.
- Message recorder. Interior and exterior temperature. Carillon clock with different bells.
- GSM phone connection: Remote control of home electrical appliances and different alarms (gas, fire, flooding...) by fixed or mobile telephone.
- Compatible with EIB-Konnex Systems using an interface.

Central units

Central units

40810 · 40710 · 40010

40810 · 40730 · 40020

Domos2 central units control all system functions and manage up to 50 zones. Depending on the model, they are able to control up to 3 general audio programs, as well as the general clock and message recorder.

Domos2 central units have no internal power supply. A power supply will therefore be needed for the installation. You will need to install at least one power supply, depending on the installation power consumption.

Domos2 central units are designed to be installed in V11F flush-mounting box or on DIN rail.

Domos2 central units are not compatible with each other. Should you wish to increase the system features, you will need to change the model of the central unit. The system does not allow two DIN central units working in parallel.

However, the system allows the combination of mini central units in order to provide similar features.

40010

Central unit with 1 audio program + IR

40010 Central unit has been designed to transmit stereo audio from an external audio source (MP3, CD player, DVD, etc) to your **Domos2** system. To be used with 0501 or 0502 wire.

It must be connected to a power supply for a correct operation of the system (ref. 40710 or 40730).

Features:

- 1 Stereo audio program (with IR remote control).
- Up to 2 additional audio programs, if connected to 40070, 40080 and/or 40200 central units.
- Baby-phone (acoustic surveillance of children or sick people).
- Clock to display the time for the whole system.
- Intercom up to 50 zones.
- Message recorder (up to 20 seconds).
- Bell function. It produces a ringing tone in every control unit when the door phone is activated.
- SOS function for emergency calls.
- Door opening and intercom from any control unit (with 40410 or 40420 module).

40020 Central unit with 1 audio program/FM + IR

40020 Central unit has been designed to transmit stereo audio from an external audio source (MP3, CD player, DVD, etc) to your **Domos2** system. It must be connected to a power supply for a correct operation of the system (ref. 40710 or 40730).

Features:

- 1 Stereo audio program.
- Up to 2 additional audio programs, if connected to 40070, 40080 and/or 40200 central units.
- 1 FM radio tuner and 1 external audio input (with IR remote control).
- Baby-phone (acoustic surveillance for children or sick people).
- GPS Clock to display the time for the whole system (with 40530 module).
- Intercom up to 50 zones.
- Door opening and intercom from any control unit (with 40410 or 40420 module).
- Carillon function (with 40570 module).
- SOS function for emergency calls.
- Bell function. It produces a ringing tone in every control unit when the door phone is activated.
- Message recorder (up to 20 seconds).
- Control keys.
- Security alarm (with 40610 module).
- It programs the 40521 GSM module.

40040 Central unit with 2 audio programs/FM + IR

40040 Central unit has been designed to transmit stereo audio from an external audio source (MP3, CD player, DVD, etc) to your **Domos2** system. It must be connected to a power supply for a correct operation of the system (ref. 40710 or 40730).

Features:

- 2 Stereo audio programs.
- Up to 1 additional audio program, if connected to 40070, 40080 or 40200 central units.
- 2 FM radio tuners and 1 external audio input (with IR remote control).
- Baby-phone (acoustic surveillance for children or sick people).
- GPS Clock to display the time for the whole system (with 40530 module).
- Intercom up to 50 zones.
- Door opening and intercom from any control unit (with 40410 or 40420 module).
- Carillon function (with 40570 module).
- SOS function for emergency calls.
- Bell function. It produces a ringing tone in every control unit when the door phone is activated.
- Message recorder (up to 20 seconds).
- Control keys.
- Security alarm (with 40610 module).
- It programs the 40521 GSM module.

Central units

Central units

40050
Central unit with 3 audio programs + IR

40050 Central unit has been designed to transmit stereo audio from 3 external audio sources (MP3, CD player, DVD, etc) to your **Domos2** system. To be used with 0501 or 0502 wire.

It must be connected to a power supply for a correct operation of the system (ref. 40710 or 40730).

Features:

- 3 Stereo audio programs (from 3 different external audio sources with IR remote control).
- Baby-phone (acoustic surveillance for children or sick people).
- Clock to display the time for the whole system.
- Intercom up to 50 zones.
- Message recorder (up to 20 seconds).
- Bell function. It produces a ringing tone in every control unit when the door phone is activated.
- SOS function for emergency calls.
- Door opening and intercom from any control unit (with 40410 or 40420 module).

40060
Central unit with 3 audio programs/FM + IR

40060 Central unit has been designed to transmit stereo audio from an external audio source (MP3, CD player, DVD, etc) to your **Domos2** system.

It must be connected to a power supply for a correct operation of the system (ref. 40710 or 40730).

Features:

- 3 FM radio tuners and 1 external audio input (with IR remote control).
- 3 Stereo audio programs.
- Baby-phone (acoustic surveillance for children or sick people).
- GPS Clock to display the time for the whole system (with 40530 module).
- Intercom up to 50 zones.
- Door opening and intercom from any control unit (with 40410 or 40420 module).
- Carillon function (with 40570 module).
- SOS function for emergency calls.
- Bell function. It produces a ringing tone in every control unit when the door phone is activated.
- Message recorder (up to 20 seconds).
- Control keys.
- Security alarm (with 40610 module).
- It programs the 40521 GSM module.

Minicentral units

Domos2 mini central units are designed to give additional audio programs to the system, among other features.

These central units have no internal power supply. A power supply will therefore be needed for the installation. You will need to install at least one power supply, depending on the installation power consumption.

Domos2 mini central units work independently or with another central unit. They are compatible with each other and it is possible to install up to 3 central units in the system. Note: The system allows only one 40090 mini central unit.

They are designed to be installed in Ø 60 mm box.

ref. 40072 (White)

40070 · 40072

Central unit with 1 audio program + IR

40070 Central unit must be connected to a power supply for a correct operation of the system (ref. 40710 or 40730).

Features:

- 1 Stereo audio program for the whole system.
- IR remote control of the external audio source.
- It can operate independently or with any of the following EGi central units: 40090, 40010, 40020 or 40040.

40080 · 40082

Central unit with 1 FM program

40080 Central unit must be connected to a power supply for a correct operation of the system (ref. 40710 or 40730).

Features:

- 1 Stereo audio program with FM tuner for the whole system.
- 9 FM radio stations.
- Manual or automatic radio search function.
- It can operate independently or with one of the following EGi central units: 40090, 40010, 40020 or 40040.
- Brightness adjustable display.

ref. 40090 (Black)

ref. 40092 (White)

40090 · 40092

Mini central unit with clock and intercom

40090 Mini central unit gives additional features to your system such as room-to-room intercom, baby-phone and SOS function. It also has a clock to display the time for the whole system.

Automatic set-up for intercom when connecting the module but manual set-up for the clock.

40090 Mini central unit cannot be installed with a DIN rail-mounting central unit but it can be installed with 40070 and 40080 mini central units.

Domos2 system does not allow the installation of two 40090 mini central units.

Features:

- Clock to display the time for the whole system.
- Time set-up from the mini central unit or any **Domos2** control unit.
- It works for 1 week without power supply.
- Baby-phone.
- SOS function.
- Brightness adjustable display.
- Door opening and intercom from any control unit (with 40410 or 40420 module).

Accessories for central units and power supplies (DIN rail mounting)

40810

40810

Aluminium front trim for central unit + power supply

To be installed with V11F flush-mounting box or W11F surface-mounting box. It measures 12 DIN modules wide. DIN rail included. Dimensions: 280 x 155 x 40 mm

40820

40820

Double front trim in aluminium

To be installed with two V11F flush-mounting boxes or W11F surface-mounting boxes. It measures 24 DIN modules wide. DIN rail included. Dimensions: 545 x 155 x 40 mm

Power supplies

Domos2 power supplies are designed to supply power to your audio & home automation system. We recommend to install them with our central units on DIN rail, V11F flush-mounting box or W11F surface-mounting box. It is also possible to install them in any other distribution switchboard with DIN rail.

40710
15 W Power supply. 230 Vac. 15 V

15 W Power supply for in-wall mounting using V11F box or surface mounting using W11F box or DIN rail mounting (6 units).

Short circuit protection.

40730
40 W Multivoltage power supply. 15 V

40 W Power supply for in-wall mounting using V11F box or surface mounting using W11F box or DIN rail mounting (6 units).

Short circuit protection.

| Technical specifications | 40710 | 40730 |
|--------------------------|------------------------------|------------------------------|
| Dimensions (X x Y x Z) | 105 x 85,5 x 65 mm | 105 x 85,5 x 65 mm |
| Output power | 15 W / 1.100 mA | 40 W / 2.750 mA |
| Output voltage | 15 V $\overline{\text{---}}$ | 15 V $\overline{\text{---}}$ |
| Frequency | 50-60 Hz | 47-63 Hz |
| Source type | Linear | Switching |
| Voltage | 230 V~ | 110-240 V~ |
| DIN rail units | 6 | 6 |

NOTE: The power supply model will be determined by the total consumption of the installation. For long distances, it is recommended to install two or more power supplies to avoid voltage drop. Do not initialize all modules of the system at the same time, if a multivoltage power supply is connected to the system.

Control units

Domos2 control units are designed to set-up the functions of the system and can be used from any room independently. All control units are designed to be installed in Ø 60 mm box. Each central unit or 40090 mini central unit allow a maximum number of 50 zones, corresponding each zone to one control unit.

Domos2 control units are connected to a 10-wire BUS of the general line and are powered at 15 V. They allow up to 3 general programs in stereo audio (depending on the central unit model) and up to 2 additional local programs in audio stereo (1 through the local FM radio and 1 through the 40140 module).

40300

LCD Touch-screen audio + domotic control unit
3 audio programs + RDS local FM + IR

40300 Control unit has a large touch-screen with backlight. It allows the control and set up of the main Domos2 audio and domotic functions.

- Touch-Screen.
- Easy and quick access to domotic and audio functions.
- Up to 3 general audio programs + local program using the 40140 module.
- RDS Local FM radio with 9 presets.
- Radio search on the central unit and the local FM radio.
- Tone adjustment (bass, middle and treble).
- Baby-phone (acoustic surveillance of children or sick people).
- "Do not Disturb" function.
- General call and room-to-room intercom.
- Clock and alarm clock.
- Programmable timer.
- Message recorder/player.
- It can be controlled with the 40100 or 40130 remote control.
- Interior temperature (and exterior temperature, if 40530 module is used).
- Chronothermostat function.
- Bell, carillon and door phone activation/deactivation.
- Domotic functions (local and general) if domotic modules are used.
- SOS function.
- Brightness adjustable display.
- Edit Zone Name (max 8 characters).
- 6 Languages: English, French, German, Italian, Portuguese and Spanish.

40310

LCD Touch-screen audio + domotic control unit
3 audio programs + RDS local FM + IR + speaker + headphone output

- Same features as 40300 module.
- Desktop module with speaker and headphone output.
- To be connected to 40150 module.

40271

LCD Audio + domotic control unit
3 audio programs + IR + menu configuration

40271 Control unit has a large LCD display with backlight. It allows the control and set up of the main Domos2 audio and domotic functions.

Features:

- Up to 3 general audio programs + local program using the 40140 module.
- Radio search on the central unit.
- Tone adjustment (bass, middle and treble).
- Baby-phone (acoustic surveillance of children or sick people).
- “Do not Disturb” function.
- General call and room-to-room intercom.
- Clock and alarm clock.
- Programmable timer.
- Message recorder/player.
- It can be controlled with the 40100 or 40130 remote control.
- Interior temperature (and exterior temperature, if 40530 module is used).
- Chronothermostat function.
- Bell, carillon and door phone activation/deactivation.
- Domotic functions (local and general) if domotic modules are used.
- SOS function.
- Brightness adjustable display.
- Menu configuration.

40281

LCD Audio + domotic control unit
3 audio programs + local RDS FM + IR + menu configuration

40281 Control unit has a large LCD display with backlight. It allows the control and set up of the main **Domos2** audio and domotic functions.

Features:

- Up to 3 general audio programs + local program using the 40140 module.
- RDS Local FM radio with 9 presets.
- Radio search on the central unit and the local FM radio.
- Tone adjustment (bass, middle and treble).
- Baby-phone (acoustic surveillance of children or sick people).
- “Do not Disturb” function.
- General call and room-to-room intercom.
- Clock and alarm clock.
- Programmable timer.
- Message recorder/player.
- It can be controlled with the 40100 or 40130 remote control.
- Interior temperature (and exterior temperature, if 40530 module is used).
- Chronothermostat function.
- Bell, carillon and door phone activation/deactivation.
- Domotic functions (local and general) if domotic modules are used.
- SOS function.
- Brightness adjustable display.
- Menu configuration.

40220
LCD Audio control unit

Features:

- Up to 3 general audio programs.
- General call reception.
- "Do not Disturb" function.
- Clock and alarm clock.
- Programmable timer.

40221
LCD Audio control unit + local FM

Features:

- Up to 3 general audio programs.
- Local FM radio with 9 presets.
- General call reception.
- "Do not Disturb" function.
- Clock and alarm clock.
- Programmable timer.

40610

Security alarm sensor

40610 module is used as intruder sensor but it may also be used as presence control.

It is activated/deactivated with security cards (allowing up to 8 different cards), specially programmed for each sensor.

Features:

- Intruder detector with 100-degree horizontal and 82-degree vertical detection angles, and a range of 10 m.
- Activation/deactivation of the security alarm in 2 areas (for instance, 1st floor and 2nd floor) with the electronic card.
- Entry and exit register with the 40510 domotic central unit.

| Technical specifications | 40610 |

Remote controls

Domos2 offers two different remote controls in order to control your audio and domotic system at the touch of a button.

40100
LCD Touch-screen remote control

40100 Remote control allows control over your **Domos2** system as well as your TV, video, DVD, MP3, etc.

Features:

- Large LCD Display with backlight ensuring daytime and night-time vision.
- EGi system audio controls.
- EGi system domotic controls.
- It programs up to 12 external audio sources.
- The information is safe, although the remote control remains without batteries.
- Door phone opening.

40130
Remote control

40130 Remote control allows control over your **Domos2** system and any of your audio sources (TV, video, DVD, MP3 etc.).

Features:

- EGi system audio controls.
- EGi system domotic controls (limited).
- It programs up to 9 external audio sources.
- The information is safe, although the remote control remains without batteries.
- Door phone opening.

| Technical specifications | 40100 | 40130 |

Front trim for central unit and domotic modules

Domotic modules

40510
Domotic central unit

40510 Domotic central unit is the main module of the **Domos2** domotic system. It has a LCD display with keys to set up the domotic functions without using a PC. We recommend to install the 40510 domotic central unit with the power supply on DIN rail (6 units), in our V11F flush-mounting box or with W11F surface box.

Features:

- Set up of the security alarm and SOS function.
- It programs the 40521 GSM module.
- Presence simulator.
- Entry and exit register.
- It allows an additional battery.
- It programs all alarms (gas, fire, flooding and security).
- External relay.
- It executes domotic scenarios.

40540
4-Relay module

40540 Domotic module controls all your home devices: local appliances (heating, awnings, thermostat, etc) and general appliances (garden sprinklers, presence simulator, etc). All your home appliances can be activated or deactivated through a GSM phone, as well as from the control units, remote controls and domotic central unit.

| Technical specifications | 40510 | 40540 |
|--------------------------|--------------------|--------------------|
| Dimensions (X x Y x Z) | 105 x 85,5 x 65 mm | 105 x 85,5 x 65 mm |
| No inputs / outputs | 6 / - | - / - |
| Consumption | 175 mA | 160 mA |
| Bus (general line) | 3 conductors | 3 conductors |
| Power supply | 15 V \equiv | 15 V \equiv |
| DIN rail units | 6 | 6 |

40630 Alarm relay station

40630 Alarm relay station allows the connection of the alarm sensors (fire, gas, flooding and security) to the system.

This module may be connected to central units ref 40020, 40040 or 40060.

40640 4-Relay module for 40540 module

40640 Module provides 4 additional relays to the 40540 module.

Domos2

| Technical specifications | 40630 | 40640 |
|--------------------------|--|------------------------------|
| Dimensions (X x Y x Z) | 110 x 55 x 35 mm | 105 x 85,5 x 65 mm |
| Max. consumption | 160 mA | 160 mA |
| Bus (general line) | 10 conductors | flat cable |
| Power supply | 15 V $\overline{\text{---}}$ | 15 V $\overline{\text{---}}$ |
| DIN rail units | - | 6 |
| Housing | Derivation box (160 x 110mm) or false ceiling | V11F |

Interface modules

Domos2 interface modules provide additional functions to the system. They have been designed for DIN rail enclosures or mounting boxes ref V11F or ref W11F.

40410
Universal Door phone interface

Universal door phone interface for analog extension. This interface will allow to answer a call or open the door from any **Domos2** control unit. The system allows up to 3 door phone interfaces.

It is based on an 4+1-wire analogical system, which is connected to the **Domos2** general line through 4 wires. It is compatible with the main manufacturers of door phones.

40420
ADS Door phone interface

Interface for Fermanx® digital extension.

It is based on an 3-wire digital system, which is connected to the **Domos2** general line through 3 wires.

40521
GSM Interface

This interface module works with a GSM card without the need of a fixed line.

Features:

- Alarm notice to alert your mobile or fixed telephone (pre-recorded voice messages).
- 5 Telephone numbers for incoming messages and 5 telephone numbers for outgoing messages to give alerts.
- Fire, gas, flooding, security and SOS alarm notice.
- It activates and deactivates up to 4 relays of the 40450 module, for instance: roll up/down the awning, turn on/off the lights, garden sprinkles, thermostat and any other home appliance from your phone.
- It allows the intercom between a zone of the **Domos2** installation and the user of the system through its telephone.
- 1 Internal relay to allow a direct activation/deactivation from the telephone.
- 1 Special antenna for GSM telephones.
- Set-up through SMS messages.

This interface comes in 5 different languages:

40520 Spanish 40521 English 40522 Portuguese 40523 French 40525 Italian.

40530

GPS Clock + exterior thermometer interface

40530 Interface gives the exact time to your Domos2 installation thanks to the GPS satellite systems. It has a temperature sensor to display the exterior temperature on any control unit with this function. (Control units ref 40271, 40281, 40300 and 40310).

40580

EIB-KNX Interface

EIB-KNX Interface allows communication between **Domos2** system and other systems using KNX protocol.

KNX:80 features:

Group addresses, 80 associations, 69 communication objects.

3 Group communication objects

- Audio
 - General (all zones at once)
 - On/Off, volumen adjustment
 - Audio program and radio selection
 - Zone control (up to 10 zones)
 - On/Off, microphone activation for intercom
- Activation/Deactivation of the 4 binary outputs of 40540 relay module.
- Door phone (with 40410 / 40420 interface), allowing door opening / call cancellation.

Amplifiers

40425 30 W Power amplifier

40425 Power amplifier provides 30 W (mono) or 15 W + 15 W (stereo) to either **Domos2 / MILLENNIUM** system or line output of any audio source.

Dimensions: 157,5 x 85,5 x 65 mm

Features:

- LED indicator to show stand-by mode
- LED indicator to show active mode
- Short-circuit protection
- Audio line level input enabled via N/O activation input
- High performance

40430 100 W Power amplifier

40430 Power amplifier provides 100 W to either **Domos2 / MILLENNIUM** system or line output of any audio source.

It can provide 100 W (mono) or 50 W + 50 W (stereo) or 25 W + 25 W (stereo) + 50 W (mono) for subwoofers.

Dimensions: 280 x 85,5 x 65 mm

Features:

- LED indicator to show stand-by mode
- LED indicator to show active mode
- Short-circuit protection
- Audio line level input enabled via N/O activation input
- High performance

CENTRAL UNIT
3 PROG 3 FM 3 AUDIO
EGII 40060

Domos2 System

DOMOS2 Series is based on a modular structure. The main module of the installation is the CENTRAL UNIT for DIN rail mounting (or ø60 mm box). This module distributes audio and manages all additional services provided by the series. It is usually installed with the main audio equipment.

Mini central units for ø60 mm box have the same function as central units for DIN rail mounting, but they must be combined in order to have similar features.

EGi CONTROL UNITS are installed in every room.

Control units allow to listen to the audio program, turn the volume up/down, change the audio program, intercommunicate with other rooms, etc.

There are other modules available that provide additional services to the system when connecting them to the central unit, for instance: door phone opening, home automation services, GSM communication, GPS clock, etc.*

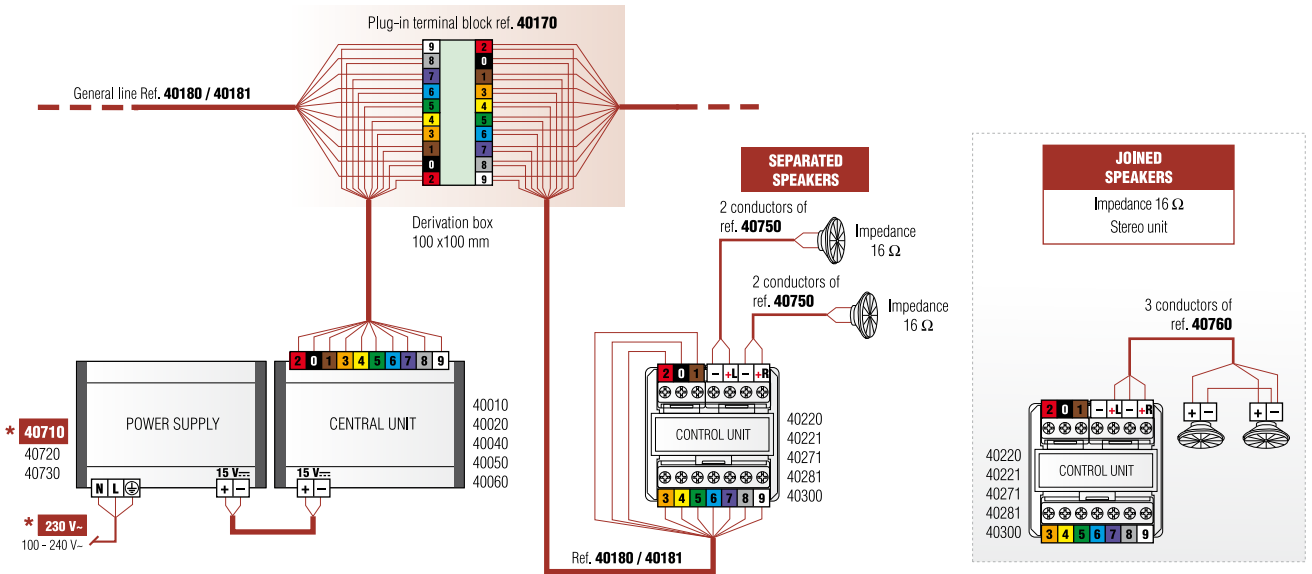

*This services will be available depending on the modules connected to the system.

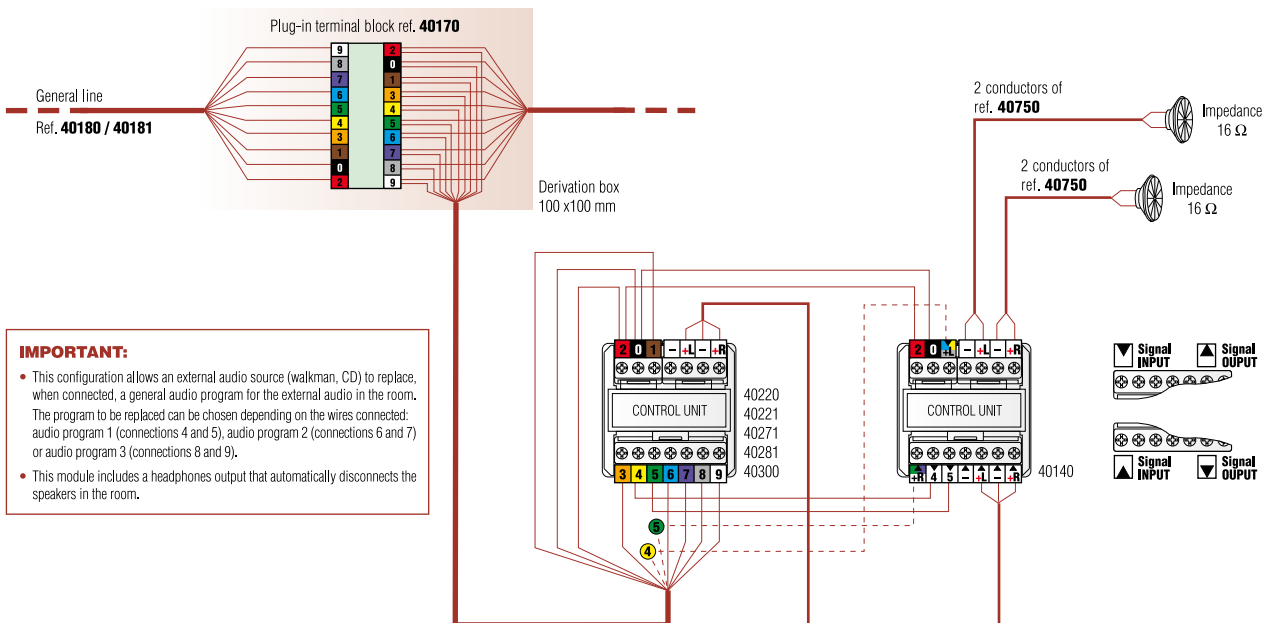

Pre-installation Guide. Diagrams and elements.

wiring examples

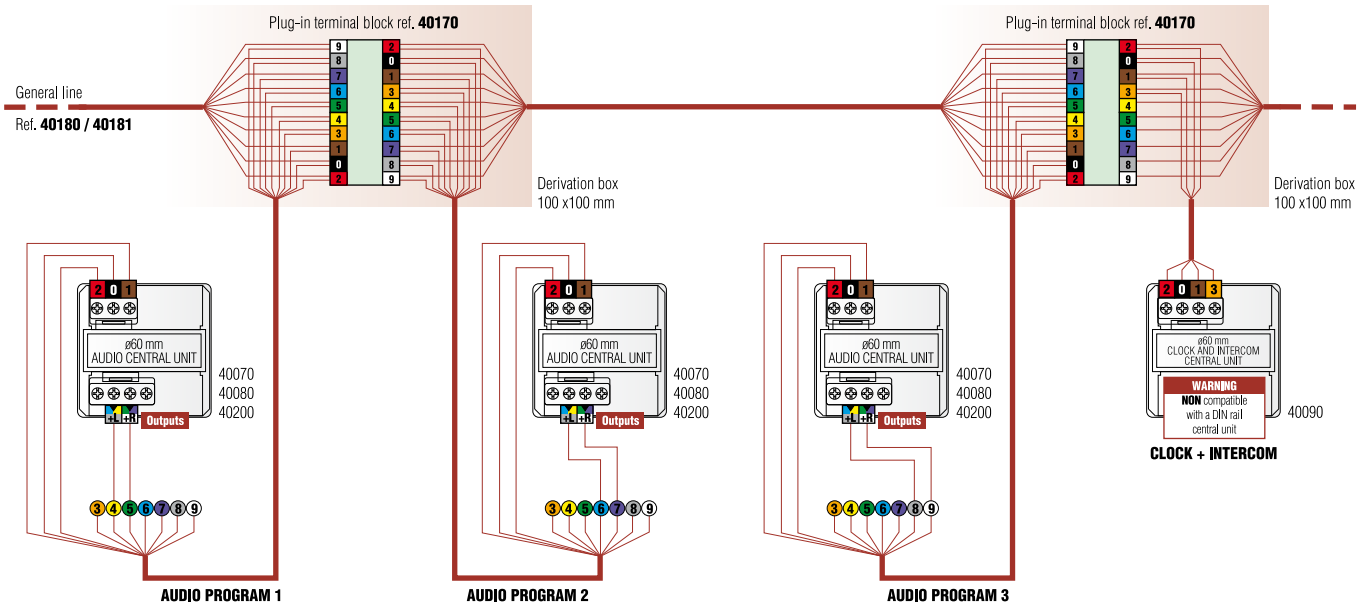

- Power supply + DIN rail central unit + stereo audio control unit

- Control unit + audio input and headphones output

• ø60 mm central unit installation with 3 audio programs + clock + intercom

NOTE:

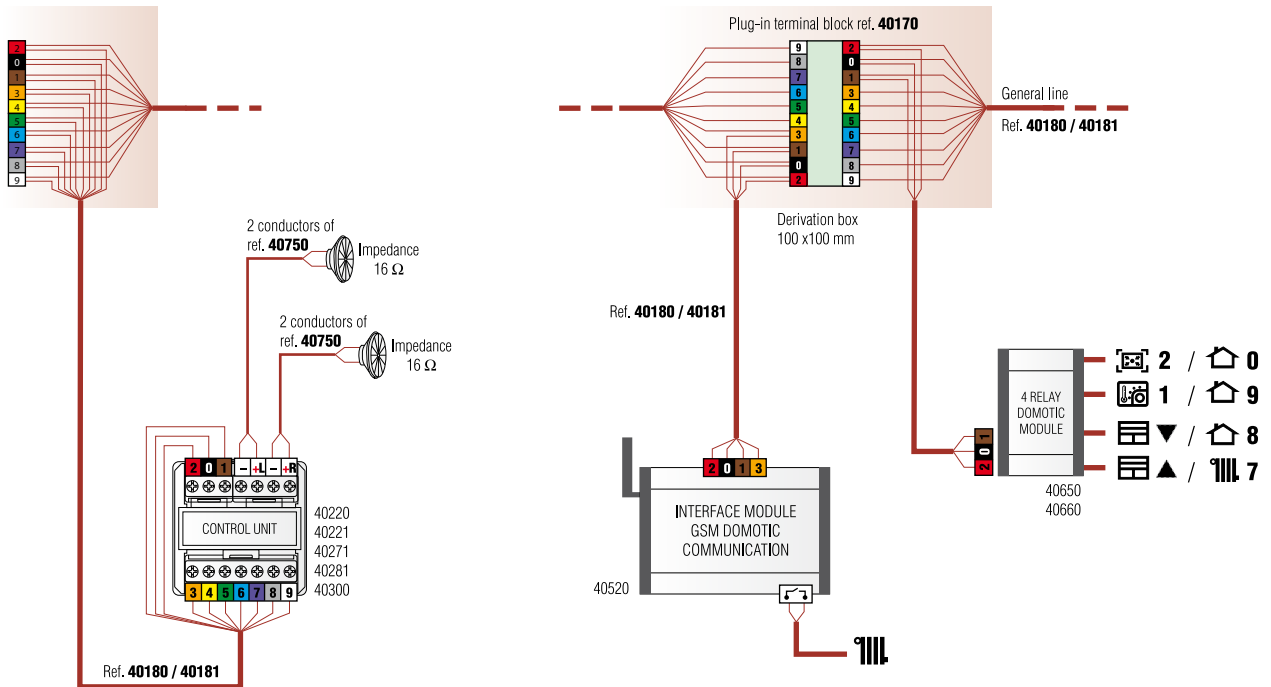

- This installation has the maximum number of central units for ø60 mm allowed (3 programs).
- The installation allows up to 3 audio central units for ø60 mm box + 1 central unit with clock and intercom.
- The installation allows the combination of central units for DIN rail mounting and ø60 mm box, with the maximum of 3 programs.

| WIRING | |

| • PROGRAM AUDIO 2 | (+L) conductor 6 (blue) (+R) conductor 7 (purple) |
| • PROGRAM AUDIO 3 | (+L) conductor 8 (grey) (+R) conductor 9 (white) |

WARNING

ONLY THE TWO CONDUCTORS FOR THE AUDIO PROGRAM MUST BE CONNECTED

• Audio installation with domotics services

SAFETY INSTRUCTIONS

- **Warning:** All modules connected to mains are "Class I" therefore it is very important to earth the appliance for system safety.
- Protect the circuit before connecting the power supply unit with a residual current device with a sensitivity of 0.03A.
- Use only original components when repairing or maintaining the system.
- Remove all protections (plastic and cardboard) prior to installation.
- Do not modify any component unless previously authorized by EGI.
- Do not cover holes or ventilation gaps.

- Do not expose devices to direct flame.
- Do not drop water on the device. Avoid water drops or rain exposure.
- Disconnect from mains before repairing or modifying the installation.
- Do not expose the device to direct sunlight.
- Do not force the mobile parts of the units.
- Not serviceable parts inside. Please refer to qualified technicians for repairing.
- Use only EGI accessories.
- EGI can not be held responsible for misuse or not described use of the products (please, refer to "Warranty").

Multiroom audio system to improve your quality of life

Confort at home is one of the factors that determines the quality of life.

Domos is the background audio system which without any service or maintenance cost, provides the greatest range of options, features and services in relation to its price. Background music in every corner of the house, answering the door entry system from any room or the intercommunication are just some features that make life pleasanter.

Features

- Up to 2 Hi FI stereo audio programs.
- Sleep timer.
- External audio sources.
- Baby-phone (acoustic surveillance for children or sick people).
- Intercom up to 15 zones.

Central units

The central unit supplies 15 Vdc and provides audio signal to the installation. Its audio inputs allow that external audio sources such as HI Fi equipment, CD players, radio tuners and pay television/ music systems can be heard from any corner of the house.

Some central units include digital FM radio tuners that allow to select and listen to your favourite radio stations from any room.

Domos central units offer 1 or 2 stereo audio programs in snow white or black finishing.

C11F/4
Central unit with 1 audio program

Features:

- 1 Stereo audio program.
- Remote turn on/ off of the audio source.
- System main switch. Stand by, overload, music and remote LED indicators.
- Front trim not included.

C18F
Central unit with 1 audio program / FM

Features:

- 1 Stereo audio program.
- FM radio with 8 presets.
- Remote turn on/ off of the audio source.
- System main switch. Stand by, overload, music and remote LED indicators.
- Front trim not included.

C16F

Central unit with 2 audio programs / 1 FM

Features:

- 2 Stereo audio programs.
- FM radio with 8 presets.
- Remote turn on/ off of the audio source.
- System main switch. Stand by, overload, music and remote LED indicators.
- Front trim not included.

EGi offers you a wide range of loudspeakers and sound diffusers

* Private house - Madrid

* Tryp hotel (Sol Meliá Chain)**** - Zaragoza

LOUDSPEAKERS

EGi loudspeakers and passive diffusers can be combined with the **Domos**, **Domos2** and **Millennium series**. They produce an excellent sound quality, both in domestic environments and in public or commercial installations.

EGi offers excellent alternatives for wall or ceiling, flush or surface mounting with sizes from 60 x 60 mm to 27 x 27 cm and options of 2", 3", 5" and 8" with three different qualities (standard, wideband and Hi-Fi), as well as different versions of baffles and cabinets to obtain the best sound performance.

Loudspeaker Series

- **EGi low impedance loudspeakers**

2" Loudspeakers, accessories for 2" loudspeakers, 3" loudspeakers, accessories for 3" loudspeakers, 5" loudspeakers, accessories for 5" loudspeakers, 5" wall-mount loudspeakers, accessories for 5" wall-mount loudspeakers, 8" loudspeakers, accessories for 8" loudspeakers, Hi-Fi baffles, accessories for Hi-Fi baffles, sound projectors

- **Sound & Lighting**

2" Loudspeakers

Decoration concerns are increasingly important in architecture related installations nowadays. The best way to ensure that loudspeakers blend into their surroundings is to reduce their size. EGi has specially developed loudspeakers of just 2" and 3", maintaining a surprising sound quality considering their dimensions.

Adaptation of control units to electrical mechanisms made by other manufacturers

AVE SYSTEM 45

By means of **EGi** chassis plate ref **W01S**.

BERKER ARSYS

By means fixing frame from **BERKER®** ref **1108..** + fixing frame from **EGi** module.

BERKER B.1

By means of **EGi** fixing frame ref **0706** + fixing frame from **EGi** module.

BERKER B.3

By means of **EGi** fixing frame ref **0706** + fixing frame from **EGi** module.

BERKER B.7

By means of **EGi** fixing frame ref **0706** + fixing frame from **EGi** module.

BJC AURA

By means of **BJC®** adapter ref **18743**.

BJC CORAL

By means of **BJC®** adapter ref **21743**.

BJC IRIS

By means of **BJC®** adapter ref **18743**.

BJC MAGNA

By means of **BJC®** adapter ref **18743**.

BJC MEGA

By means of **BJC®** adapter ref **21743**.

BJC ROOM

Direct mounting.

BJC SOL TEIDE

Direct mounting.

BTICINO AXOLUTE

Control unit: replace **EGi** metallic chassis plate for **BTICINO®**

Axolute chassis plate and **EGi** adapting kit ref. **0715** + fixing frame from **EGi** module.

Loudspeaker: replace metallic chassis plate for **EGi** metallic chassis plate ref. 0716 specific for **BTICINO® Axolute**.

BTICINO LIGHT

(60 mm box)
Control unit: direct mounting or replacing **EGi** metallic

chassis plate for **EGi** adapting kit ref. **WL2T** + fixing frame from **EGi** module.

Loudspeaker: use 2" **EGi** loudspeaker ref **GL2T/16** (black) or **GL2T/16BN** (white) specific for **BTICINO® Light** (60 mm box).

BTICINO LIGHT 503

(3-module box 60 mm box)
Control unit: replace **EGi**

metallic chassis plate for **EGi** adapting kit ref **WLGT** + fixing frame from **EGi** module. **Loudspeaker:** use 2" **EGi** loudspeaker ref. **GL3T/16** or **GL3T/16BN** specific for **BTICINO® Light** (3-module box and 60 mm box).

BTICINO LIVING

(60 mm box)
Control unit: replace the **EGi** metallic chassis plate for **EGi**

adapting kit ref. **WLIT**. **Loudspeaker:** use 2" **EGi** loudspeaker ref. **GLIT/16** or **GLIT/32** specific for **BTICINO® Living** (60 mm box).

BTICINO LIVING

(3-module box)
Control unit: replace the **EGi** metallic

chassis plate for **EGi** adapting kit ref **WLIT.1**. It is not possible to adapt the 2" wall loudspeaker to this series.

BTICINO LUNA

Control unit: replace the **EGi** metallic chassis plate for **EGi** adapting kit ref **WLUT**.

Loudspeaker: use 2" **EGi** loudspeaker ref. **GLIT/16** or **GLIT/32** specific for **BTICINO® Luna**.

BTICINO MÁTIX

Control unit: replace the **EGi** metallic chassis plate for **EGi** adapting kit ref. **07019**.

Loudspeaker: use 2" **EGi** loudspeaker ref. **06031** specific for **BTICINO® Mátix**.

EDE LOOK 75

By means of **EDE®** frame ref. **75970** + fixing frame from **EGi** module.

W01S. Chassis plate to adapt EGi control unit and loudspeaker to AVE® and System 45. Colour: black.

0706. Frame from BERKER® B.1 / B.3 / B.7 series.

0715. Kit to adapt EGi control unit to BTICINO® Axolute. **0716.** Chassis plate to adapt EGi 2" loudspeaker to BTICINO® Axolute series.

WL2T. Kit to adapt EGi control unit to BTICINO® Light (60 mm box).

GL2T/16-GL2T/16BN. 2" 16 Ω wide band loudspeaker specific for BTICINO® Light (60 mm box). Colour: Black or white.

WLGT. Kit to adapt EGi control unit to BTICINO® Light (503 box and 60 mm box).

GL3T/16-GL3T/16BN. 2" 16 Ω wide band loudspeaker specific for BTICINO® Light (3-module box and 60 mm box). White.

WLIT. Kit to adapt EGi control unit to BTICINO® Living.

GLIT/16-GLIT/32. 2" wide band loudspeaker for BTICINO® Living (60 mm box). Available in 16 Ω or 32 Ω.

WLIT.1. Kit to adapt EGi control unit to BTICINO® Living (503 box).

WLUT. Kit to adapt EGi control unit to BTICINO® Luna (60 mm box).

GLUT/16-GLUT/32. 2" wide band loudspeaker for BTICINO® Luna. Available in 16 or 32 Ω.

07019. Kit to adapt EGi control unit to BTICINO® Mátix (60 mm box).

06031. 2" 16 Ω wide band loudspeaker specific for BTICINO® Mátix.

EFAPEL APOLO 5000

By means of **EGi** fixing frames ref. **WJ1E/BN** (1-gang frame), **WJ2E/BN** (2-gang frame), **WJ3E/BN** (3-gang frame) + **EGi** fixing frame ref. **W27S/..**

EFAPEL SIRIUS 70

By means of **EGi** frame ref. **0713.xx** + fixing frame from **EGi** module

EUNEA SM100

Direct mounting.

EUNEA SM100 Master

Direct mounting.

EUNEA SM180

Control unit: replace **EGi** metallic chassis plate for **EGi** adapting kit ref. **WSM8/..** + **EUNEA®** frame ref **70412.xx**.

It is not possible to adapt the 2" in-wall loudspeaker to this series.

EUNEA SM200

Control unit: replace the **EGi** metal chassis with an **EUNEA®** adaptor ref. **30582XX**

+ intermediate frame by **EUNEA®** ref. **60412XX** + frame accompanying the **EGi** module. Loudspeaker: use 2" **EGi** loudspeaker ref **0601.10** (white) or **0601.12** (black) specific for **EUNEA® SM200**

EUNEA ÚNICA

Remove inner tabs from **EUNEA®** frame + **EGi** adapting frame ref. **0707.xx**

EUNEA ÚNICA PLUS Y TOP

Inner parts from **EUNEA®** frame + **EGi** adapting frame ref. **0711.xx**

EUNEA ÚNICA, ÚNICA PLUS/TOP

Alternative to **0707.xx** and **0711.xx** by **EGi** fixing frame ref. **0714.xx**. With

this option it is not possible to install the 2" in-wall loudspeaker.

GENERAL ELECTRIC SINTRA

By means of **GE®** ref. **SS237** (1-gang frame) or **DHS237** (2-gang frame) + **GE®** fitting

plate for sound modules ref **DHS237** + fixing frame from **EGi** module.

GEWISS CHORUS

Control unit: replace **EGi** metallic chassis plate for **EGi** adapting kit ref. **0717**.

Loudspeaker: use 2" loudspeaker ref. **06020** specific for **GEWISS® Chorus**.

GEWISS PLAYBUS

(3-module box) (60 mm box) **Control unit:** replace

EGi metallic chassis plate for **EGi** adapting kit ref. **WPLG**. **Loudspeaker:** use 2" loudspeaker ref. **GP2G/16** specific for **GEWISS® Playbus**.

GEWISS SYSTEM 22 EXPO

(3-module box)(60 mm box) **Control unit:**

replace **EGi** metallic chassis plate for **EGi** adapting kit ref. **W22G**. It is not possible to adapt the 2" in-wall loudspeaker to this series.

GIRA EVENT

By means of **EGi** fixing frame ref. **WEVG/..** + **EGi** frame ref **W27S/..**

GIRA F-LINE

By means of **EGi** fixing frame ref. **WFLG/..** + fixing frame from **EGi** module.

JUNG CD500

By means of adapting frame from **JUNG®** ref. **CD Egi** or **CD Egi WW** + fixing frame from **EGi** module.

WJ1E/BN. 1-Gang frame. Snow white. **WJ2E/BN**. 2-Gang frame. Snow white. **WJ3E/BN**. 3-Gang frame. Snow white. **EGi** adapting kit to EFAPEL® Apolo 5000 series.

0713.10. White **0713.13**. Ivory white. **0713.14**. Anthracite. Frame from EFAPEL® Sirius 70 series.

WSM8/BL. Ivory white. **WSM8/BN**. Snow white. **WSM8/NE**. Black. **WSM8/GR**. Grey. **EGi** adapting frame to EUNEA® SM180

0601.10. White. **0601.12**. Black. 2" 16Ω wide band loudspeaker specific for EUNEA® SM200 series.

0707.10. White. **0707.12**. Black. **0707.14**. Grey. **EGi** adapting frame to EUNEA® Única.

0711.10. White. **0711.12**. Black. **0711.14**. Grey. **EGi** adapting frame to EUNEA® Única Plus and Top series.

0714.10. White. **0714.12**. Black. **0714.14**. Grey. Kit to adapt **EGi** control unit to EUNEA® Única Plus and Top series.

0717. Kit to adapt **EGi** control unit to GEWISS® Chorus. **06020**. 2" 16Ω wide band loudspeaker specific for GEWISS® Chorus.

WPLG. Kit to adapt **EGi** control unit to GEWISS® PLAYBUS.

GP2G/16. 16 2" 16Ω wide band loudspeaker specific for GEWISS® PLAYBUS (3-module box) (60 mm box).

W22G. Kit to adapt **EGi** control unit to GEWISS® System 22 Expo. (3-module box) (60 mm box).

WEVG/27. White. **WEVG/28**. Anthracite. Frame GIRA® Event.

WFLG/54. White cream. **WFLG/55**. White pure. **WFLG/56**. Metallic brown. **WFLG/57**. Metallic anthracite. Frame GIRA® F-Line.

JUNG CD PLUS

By means of adapting frame from **JUNG®** ref. **CD EGi** or **CD EGi WW** + fixing frame from **EGi** module

JUNG LS990

By means of adapting frame from **JUNG®** ref. **LS SON EGi** or **LS SON EGi WW** or **LS SON EGi AL** + fixing frame from **EGi** module

JUNG A 500

By means of adapting frame from **JUNG®** ref. **A 500 EGi WW** or **A 500 EGi AL** + fixing frame from **EGi** module

JUNG AS 500

By means of adapting frame from **JUNG®** ref. **A 500 EGi WW** or **A 500 EGi AL** + fixing frame from **EGi** module

LEGRAND DECOR

By means of **EGi** fixing frame ref. **WDEL** + fixing frame from **EGi** module

LEGRAND GALEA-GALEA LIFE

By means of **EGi** fixing frame ref. **0702.xx** + fixing frame from **EGi** module

LEGRAND VALENA

By means of **EGi** fixing frame ref. **0705.xx** + fixing frame from **EGi** module. ref. **W27S/..**

MERTEN ATELIER (System Basis)

By means of **EGi** fixing frame ref. **0020xx** + fixing frame from **EGi** module. ref. **W27S/..**

MERTEN M1 (System Basis)

By means of **EGi** fixing frame ref. **0020xx** + fixing frame from **EGi** module. ref. **W27S/..**

MERTEN M-SMART (System M)

By means of **EGi** fixing frame ref. **0705.xx** + fixing frame from **EGi** module. ref. **W27S/..**

MERTEN M-ARC (System M)

By means of **EGi** fixing frame ref. **0705.xx** + fixing frame from **EGi** module. ref. **W27S/..**

MERTEN M-PLAN (System M)

By means of **EGi** fixing frame ref. **0705.xx** + fixing frame from **EGi** module. ref. **W27S/..**

MERTEN M-PLAN II (System M)

By means of **EGi** fixing frame ref. **0705.xx** + fixing frame from **EGi** module. ref. **W27S/..**

MERTEN M-PLAN Glass (System M)

By means of **EGi** fixing frame ref. **0705.xx** + fixing frame from **EGi** module. ref. **W27S/..**

MERTEN M-STAR (System M)

By means of **EGi** fixing frame ref. **0705.xx** + fixing frame from **EGi** module. ref. **W27S/..**

MERTEN ARTEC (System Design)

By means of **EGi** fixing frame ref. **0021xx** + fixing frame from **EGi** module

MERTEN TRANCENT (System Design)

By means of **EGi** fixing frame ref. **0021xx** + fixing frame from **EGi** module

MERTEN ANTIK (System Design)

By means of **EGi** fixing frame ref. **0021xx** + fixing frame from **EGi** module

MERTEN OCTOCOLOR

By means of **EGi** fixing frame ref. **0026xx** + fixing frame from **EGi** module. ref. **W27S/..**

NIKO PR20

By means of **EGi** fixing frame ref. **W20N/..** + fixing frame from **EGi** module

WDEL. Trim LEGRAND® Decor.

0702.10. White. Frame from LEGRAND® Galea and Galea Life.

0705.10. White. **0705.11.** Cream. Frame from LEGRAND® Valena.

002019. Polar white. **002074.** White. Frame from MERTEN® Atelier / M-1 series.

002119. Polar white. **002149.** Metallic bronze. Frame from MERTEN® Artec / Tracent / Antik series.

002605. Metallic titanium. **002619.** Polar white. **002642.** Metallic bronze. **002644.** White. Frame from MERTEN® Octocolor series.

W20N/BN. Snow white. **W20N/MF.** Ivory white. Frame from NIKO® PR20 series.

NIKO PR20 SOFT

By means of **EGi** fixing frame ref. **WSON/..** + fixing frame from **EGi** module.

SIEMENS DELTA AMBIENTE

By means of **EGi** fixing frame ref. **WDAS/..** + fixing frame from **EGi** module.

SIEMENS DELTA PROFIL

By means of **EGi** fixing frame ref. **WDAS/..** + fixing frame from **EGi** module.

SIEMENS DELTA LINE-MIRO-VITA (I-SYSTEM)

By means of **EGi** fixing frame ref. **0708.10** + fixing frame from **EGi** module.

SIMON 27

By means of **EGi** frame ref. **W27S/..** + according to control unit colour.

SIMON 27 PLAY

By means of **EGi** frame ref. **W27S/..** + according to control unit colour.

SIMON 27 NEOS

Control unit: replace **EGi** metallic chassis plate for **EGi** chassis plate ref. **07021** + **EGi** frame ref. **W27S/..**

SIMON 28

By means of **EGi** frame ref. **W28S/..**

SIMON 31

By means of fixing frame from **SIMON®** ref. **31088-..** + fixing frame from **EGi** module.

SIMON 75

By means of **EGi** frame ref. **W75S/..**

SIMON 82

By means of fixing frame from **SIMON®** ref. **82088-..** + **EGi** frame ref. **W27S/..**

SIMON 82 NATURE

By means of fixing frame from **SIMON®** ref. **82088-..** + **EGi** frame ref. **W27S/..**

SIMON 88

By means of fixing frame from **SIMON®** ref. **82088-..** + **EGi** frame ref. **W27S/..**

VIMAR IDEA

(60 mm box)

Control unit: replace **EGi** metallic chassis plate for **EGi** adapting kit ref.

WIDV. It is not possible to adapt the 2" in-wall loudspeaker to this series.

VIMAR IDEA

(3-module box and 60 mm box)

Control unit:

replace **EGi** metallic chassis plate for **EGi** adapting kit ref. **WID3**. **Loudspeaker:** use 2" loudspeaker ref. **GI3V/16** or **GI3V/32** specific for **VIMAR®** Idea (3-module box and 60 mm box).

VIMAR PLANA

(60 mm box)

Control unit: replace **EGi** metallic chassis

plate for **EGi** adapting kit ref. **07020**. **Loudspeaker:** use 2" loudspeaker ref. **06032** specific for **VIMAR®** Plana (60 mm box).

VIMAR PLANA

(3-module box and 60 mm box)

Control unit:

replace **EGi** metallic chassis plate for **EGi** adapting kit ref. **07010**. **Loudspeaker:** use 2" loudspeaker ref. **06032** specific for **VIMAR®** Plana (3-module box and 60 mm box).

WSON. Black. Frame from NIKO® PR20 Soft series.

WDAS/PL. Silver. Frame from SIEMENS® Delta Ambiente and Delta Profil series.

0708.10. White Frame from SIEMENS® Delta Line / Delta Micro / Delta Vita series.

0708.12. Black Frame from SIEMENS® Delta Line / Delta Micro / Delta Vita series.

W27S/BN. Snow white. **W27S/NE.** Black. **W27S/MF.** Ivory white. **W27S/GR.** Grey. Frame from SIMON® 27 / 82 / 88 and and other models.

07021. Chassis plate to adapt EGi control unit to SIMON® 27 Neos. **07022.** Chassis plate to adapt 2" loudspeaker to SIMON® 27 Neos series.

W28S/30. Snow white. **W28S/31.** Ivory white. **W28S/32.** Black. Frame from SIMON® 28 series.

W75S/30. Snow white. **W75S/31.** Ivory white. **W75S/33.** Aluminium. **W75S/35.** Grey. **W75S/36.** Bronze. **W75S/38.** Anthracite. Frame from SIMON® 75 series.

WIDV. Kit to adapt EGi control unit to VIMAR® Idea (60 mm box).

WID3. Kit to adapt EGi control unit to VIMAR® Idea (3-module box and 60 mm box). **GI3V/16-GI3V/32.** 2" wide band loudspeaker specific for VIMAR® Idea (3-module box and 60 mm box). Available in 16 or 32Ω.

07020. Kit to adapt EGi control unit to VIMAR® Plana (60 mm box). **06032.** 2" 16Ω wide band loudspeaker specific for VIMAR® Plana (60 mm box).

0710. Kit to adapt EGi control unit to VIMAR® Plana (3-module box and 60 mm box). **0608.16.** 2" 16Ω wide band loudspeaker specific for VIMAR® Plana (3-module box and 60 mm box).
